CodeChef - [hulk\\_buster](#)

GitHub-[pawan1210](#)

## Summary

*A self-motivated and hardworking Computer Science Student, proficient in writing clean code in Java and has experience in languages like Python and JavaScript also.*

## EDUCATION

**Deenbandhu Chhotu Ram University of Science and Technology, Murthal**

*Bachelor of Technology in Computer Science and Engineering*

- GPA: 8.1/10 , Graduation Year - 2021

## WORK-EXPERIENCE

### Innovaccer

*Software Development Intern*

*April 2020–June 2020*

- Created REST APIs for integration of Stripe and Google-Fit.
- Wrote simple unit-tests for all the APIs.
- Used Django-rest-framework throughout the codebase.
- Technologies Used- Django, PostgreSQL, Celery.

### Spanish Bolo

*Backend Development Intern*

*Feb 2020–March 2020*

- Worked on the the backend of company's website [www.bailabollywood.com](#).
- Used Medium Api to show blogs directly on the website.
- Technologies Used- Node.js, Express.js, MongoDB, AWS (EC2).

## SKILLS

- Java, JavaScript, Python, C++
- Data Structures and Algorithms, Object-Oriented Programming (OOP), SQL
- Backend - Django, Express.js (Node.js)
- Front-end – Html5, CSS, React.js
- Databases – PostgreSQL, MongoDB
- Familier-Git, Linux

## ACHIEVEMENTS

- Regular participant of various coding contests like CodeChef long challenge, Google Kickstart.

## PERSONAL PROJECTS

### [Reddit-top-links \(Django\)](#)

The app provides insights abouts links shared in the Subreddits that you follow. It allows you to see the top contributors who shared different links, along with the top domains whose links were shared and also lists the posts with the said links. The purpose of all this is to collect various data points and then create a viable dashboard.

### [YelpCamp \(Node.js\)](#)

A full-stack website that shows a list of campgrounds on the home page. The user can create an account and add new campgrounds also. Each individual campground also has edit and delete functionality. User can only edit or delete thier own campgrounds. Every user who is login to yelp camp can also add comments to the campgrounds.

### [React Dashboard](#)

A frontend only dashboard created with the help of a wireframe. Various graph components are also used in this and it is fully responsive also.
